

Time	Paper title	Section	First Author
Friday, May 14th			
09:00	THE ADVANTAGE OF BIOINFORMATIC ANALYSIS IN THE DIAGNOSIS OF MAROTEAUX-LAMY SYNDROME	Basic Medical Sciences	György Attila Tamás
09:10	RISK EVALUATION OF EARLY COMPLEMENTARY FEEDING IN ROMANIAN INFANTS (0-12 MONTHS)	Basic Medical Sciences	Ioana Camelia Naste
09:20	A constantly changing system: a role for class I Major Histocompatibility Complex in neuroplasticity	Basic Medical Sciences	Andrei Prodaniuc
09:30	What doesn't kill you, does it really make you stronger? A study about ethical and neural implications of neuroenhancement	Basic Medical Sciences	Alexandra Bianca Faraon
09:40	THE SOCIO-DEMOGRAPHIC AND PSYCHOLOGICAL FACTORS THAT INFLUENCE MOTHERS' ATTITUDES TOWARDS THE COMPLEMENTARY FEEDING INITIATION	Basic Medical Sciences	Andreea Maria Grama
09:50	MORPHOLOGICAL AND IMMUNOHISTOCHEMICAL ASPECTS OF HELICOBACTER PYLORI DIAGNOSIS ON GASTRIC BIOPSIES	Basic Medical Sciences	Raluca-Diana Hagău
10:00	The impact of students' lifestyle upon their anxiety level	Basic Medical Sciences	Sofia Teodora Hărșan
10:10	The quality of information about chronic lymphocytic leukemia on the Internet	Basic Medical Sciences	Ana-Mirela Nițu
10:20	Evaluation of Indoor Artificial Lighting Conditions in a Medical University	Basic Medical Sciences	Larisa-Andreea Pamfilie
10:30	Anti-CGRP monoclonal antibodies: an innovative perspective in migraine pharmacotherapeutics	Basic Medical Sciences	Mara-Sînziana Sîngeap
10:40	Why are medical students stressed? Social media use and physical activity as potential coping mechanisms	Basic Medical Sciences	Roxana Bolchiș
10:50	Correlations between stress and menstrual disturbances among UMFST students	Basic Medical Sciences	Silvia Maria Lobonț
11:00	MORPHOLOGICAL CLASSIFICATION OF CELL TYPES IN THE RAT SUPERIOR COLLICULUS	Basic Medical Sciences	Gabriela-Diana Chertic
Coffee Break			

11:15	Novel therapeutic strategy in a rat model of perinatal asphyxia	Basic Medical Sciences	Hanga Kelemen
11:25	Etiologic and clinical features of acute infectious diarrhea in children	Basic Medical Sciences	Andreea-Marilena Sima
11:35	How postprandial hyperlipidemia influences the phenotype of monocytes and granulocytes?	Basic Medical Sciences	Ionela-Maria Cotoi
11:45	Cytokine production in ex-vivo stimulated fresh and cryopreserved T-cells	Basic Medical Sciences	Monica Vuță
11:55	A comparative analysis of double-stranded DNA breaks between cryopreserved and freshly isolated lymphocytes, via confocal microscopy	Basic Medical Sciences	Tudor Gabriel Boghițoiu
12:05	The relation between SARS-CoV-2 viral load and biochemical and hematological markers	Basic Medical Sciences	Maria Antonia Balan
12:15	Students anxiety levels during COVID-19 Pandemic. A small change that makes a big difference.	Basic Medical Sciences	Bogdan Finascu
12:25	Awareness of the Latvian population about HIV	Basic Medical Sciences	Kristine Kosareva
12:35	Taking The Medical Admission Test Multiple Times Not Correlated With Lower Grade At The Residency Exam	Basic Medical Sciences	Matei Iurea
